

The diagram illustrates the interaction between a hexapod and an external computer. On the left, a large rectangle labeled 'hexapod' contains a dashed rectangle labeled 'API'. On the right, a large rectangle labeled 'external computer' contains two dashed rectangles: 'com. script' and 'Simulation environment'. Between the 'API' box and the 'external computer' box are two sets of three concentric curved lines, one set on each side, representing communication or data exchange.

**API**

**hexapod**

**com.  
script**

**Simulation  
environment**

**external computer**
